Oscilloscope & Counter Accessories

Model CC - 21

BNC Breakout to Alligator Clips
Standard BNC to Alligator clips test leads.

- 50 ohm impedance
- RG58C/u cable
- 500Vrms voltage rating
- 40" cable length

MSRP $11.00 where to buy

Model CC540

General Purpose Oscilloscope Adapter Kit
Model CC540 General Purpose Oscilloscope Adapter Kit provides a range of BNC and N Type coaxial interconnection for general purpose oscilloscope test interconnections. All components feature standard BNC or N type connectors with 50O impedance to ensure accurate measurements. The kit is provided in a convenient foam lined storage case for easy selection and use. Features

- BNC & N Type 50O Connectors
- Gold plated center contacts
- Storage case Applications:
- Production Test Stations
- Service & Repair Facilities
- Educational Test Benches
- Calibration Work

MSRP $369.00 where to buy

Model PR 100A

PR100A x100 Probe f/All Scopes

- 250MHz Bandwidth
- X100 Attenuation
- 48" (1.2m) Cable length
- Includes a full accessory kit with a Sprung Hook, Replacement Tip and BNC Adapter.
- IEC61010 - 2 - 031

MSRP $64.00 where to buy

Model PR 150

150 MHz 1x/10x Oscilloscope Probe

- 25/150MHz Bandwidth
- X1/X10 Attenuation
- 48" (1.2m) Cable length
- Includes a full accessory kit with a Sprung Hook, Replacement Tip and BNC Adapter.
- IEC61010 - 2 - 031

MSRP $57.00 where to buy

Model PR 2000

200 MHz 2kV Oscilloscope High Voltage Probe
If the voltages you need to measure are above the specifications of the general purpose probe, B+K Precision has higher voltage probes for you.

- X100 Attenuation
- 50M ohms / 5pF Input Impedance
- 200MHz Bandwidth
- 48" (1.2m) Cable Length

MSRP $114.00 where to buy

Model PR 32A

RF Detect/Demodular Probe
All purpose demodulator probe, usable with most oscilloscopes. Features light weight design and 48" (1.2m) coaxial cable.

- 100KHz to 950MHz Bandwidth
- +3dB Accuracy
- 200V Max input voltage
- 50VeffHF Voltage
- 250mV Actuating voltage
- 5pF Input capacitance

MSRP $62.00 where to buy

Model PR 33A

10:1/Direct 90 MHz Scope Probe

- 15/90MHz Bandwidth
- X1/X10 Attenuation
- 48" (1.2m) Cable length
- Includes a full accessory kit with a Sprung Hook, Replacement Tip and BNC Adapter.
- IEC61010 - 2 - 031

MSRP $35.00 where to buy

Model PR 37AG

PR 37AG Deluxe 10:1 Gray Probe

- Grey colored probe body
- 6/150MHz Bandwidth
- X1, X10 & REF Switchable attenuation
- 48" (1.2m) Cable length
- Includes a full accessory kit with a Sprung Hook, Replacement Tip and BNC Adapter.
- IEC61010 - 2 - 031

MSRP $48.00 where to buy

Model PR 37AR

PR 37AR Deluxe 10:1 Red Probe

- Red colored probe body
- 6/150MHz Bandwidth
- X1, X10 & REF Switchable attenuation
- 48" (1.2m) Cable length
- Includes a full accessory kit with a Sprung Hook, Replacement Tip and BNC Adapter.
- IEC61010 - 2 - 031

MSRP $48.00 where to buy

Model PR - 50

Oscilloscope Probe Set, 3 pieces - x1/x100/Switchable
If you need a complete range of probe attenuation, then this is the kit for you. It contains three probes

- x1, x100, and x1/x10 switchable. They are of the same high quality as B+K Precision standard probes but in one convenient kit. Each probe includes a full accessory offering with Sprung Hook, Replacement Tip, Ground Lead and BNC Adapter. All probe are compliant to IEC61010 - 2 - 031.

MSRP $110.00 where to buy

Model PR - 55

High - Voltage Oscope Probe, 10kV, 50MHz
If the voltages you need to measure are above the specifications of the general purpose probe, B+K Precision has higher voltage probes for you.

- X1000 Attenuation
- 100M ohms / 1pF Input Impedance
- 50MHz Bandwidth
- 80" (2.0m) Cable Length

MSRP $329.00 where to buy

Model PR - 60

Active Differential Probe, x10/x100
Allows safe and accurate floating measurements with your standard analog or digital oscilloscope. Switchable between x10 and x100 attenuation. Unit includes black and red probes and protective rubber jacket.
MSRP $379.00 where to buy
