- Reduced Waste
- Ease of Transport

Just...

1 Fix in Flat Form

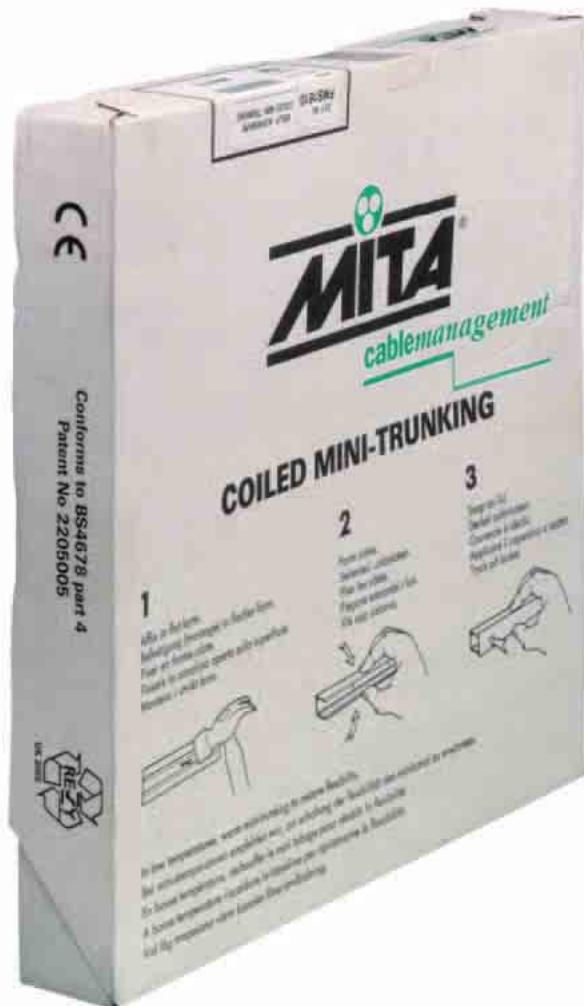

After feeding the trunking from the carton the trunking is cut to length and secured in place using appropriate fixings or self-adhesive backing.

2 Form Sides

The trunking sides are then folded into position being held securely in place with positive clip action.

3 Snap on Lid

For a neat, attractive and above all functional system which is compatible with Mita's range of fittings and socket mounting boxes.
