

RT Series

- ▶ SPST Through DPDT Contact Arrangements
- ▶ Immersion Cleanable and Flux Tight Versions Available
- ▶ 10 mm Spacing, 5 kV Dielectric, Coil to Contacts
- ▶ UL Class F Coil Insulation System
- ▶ Conforms to UL 353, 508, 873 and 1950
- ▶ Low Profile: 15.7 mm Height
- ▶ Sensitive Coil: 400 mW
- ▶ Surge Withstand Voltage of 10,000 V

Miniature PC board relay. Available in flux-tight, top vented, plastic case (RT 1, 3 and 4); or, immersion cleanable, plastic case (RT B, D and E). Continuous duty. **Nominal Power @ 25°C:** 400 mW. **Temperature Range:** Storage — -40°C to +100°C; Operating — -40°C to +85°C. **Contact Material:** Silver-nickel 90/10. **Dimensions:** 1.14" × 0.50" × 0.62". **Weight:** Approximately 0.35 oz.

T7N Series

- ▶ Immersion Cleanable, Sealed Package
- ▶ Applications Include Appliance, HVAC, Security System, Garage Opener Light, Emergency Lighting

- ▶ Low Cost: Small Package: 10 A Relay
- ▶ 1 Form A and 1 Form C Contact Arrangement
- ▶ Plastic Materials Employ UL 94V-0 Flammability
- ▶ UL Class F (140°C) Coil Standard

Miniature low cost PC board relay. Immersion cleanable, sealed package. Silver-cadmium oxide contacts. **Temperature Range:** Storage — -40°C to +130°C; Operating — -40°C to +85°C. **Dimensions:** 0.87" × 0.63" × 0.65". **Weight:** 38 oz.

RE/PE Miniature PCB Relays

RE/PE offers small, sensitive, powerful package for appliance and industrial applications. Low profile 10 mm height allows close board stacking. Sensitive 200 mW coil with 4 kV coil-to-contact isolation. **Load Switching Capability:** RE-1 Form A contacts rated at 6 A; PE-1 Form C contacts rated at 5 A.

V23026 Series

CECC approved in accordance with CECC 16501-002/VDE400.47/04.90

- ▶ Surface and Through-Hole Mounting Types
- ▶ 1 Form C Contact Arrangement
- ▶ Latching or Non-Latching Versions Available
- ▶ Switches Loads from Dry Circuit to 1 Amp
- ▶ Washable — Meets IEC Protection Class IP67
- ▶ Low Coil Power Requirement for IC Compatibility
- ▶ Terminals Arranged on 0.1" Grid
- ▶ Designed for Compact, High Density Mounting, 106.6 mm² Surface Area
- ▶ Better Protected Contact Area
- ▶ Ideal for Data and Communication Systems

Miniature, sealed PC board relay. Immersion cleanable, plastic sealed case. **Contact Material:** Palladium-nickel with gold-rhodium overlay, bifurcated. **Temperature Range:** -40°C to +70°C. **Dimensions:** 0.51" × 0.31" × 0.27". **Weight:** 0.063 oz.

T90 Series Low Cost, 30 A, DC Coil PC Board Relay

T90 printed circuit board relays provide an inexpensive means of switching loads up to 30 A. While these small, low-cost relays are designed primarily for the appliance industry and heating, ventilating and air conditioning markets, they are also well suited for load management automotive and other applications. The T90 is available with silver-cadmium oxide contacts in 1 Form A or C arrangements. A plastic, snap-on dust cover is available for the open-style T90, but must be ordered separately. See below. Mechanical life expectancy of T90 relays is 10 million operations. Electrical life expectancy is 100,000 operations at rated loads. T90S is sealed version. **Coil Data. Temperature, Max.:** 130°C. **Insulation Class:** B. **Insulation Resistance, Initial:** 1000 megohms, minimum, at 25°C, 500 VDC and 50% relative humidity. **Breakdown Voltage, Initial:** 1500 V rms, contact to coil. **Operate Data. Must-Operate Voltage:** Less than 75% of nominal voltage at 25°C. **Must-Release Voltage:** More than 10% of nominal voltage at 25°C. **Operate Time (Including Bounce):** 15 milliseconds, maximum. **Release Time (Including Bounce):** 15 milliseconds, maximum. **Environmental Data. Ambient Temperature Range:** Storage — -55°C to +105°C; Operating — -55°C to +85°C. **Vibration:** .065" maximum excursions from 10 to 55 Hz. **Resistance, Initial:** 50 milliohms, maximum. **Breakdown Voltage, Initial:** 1500 V rms, contact to contact. **Expected Life:** 10 million operations, mechanical; 100,000 operations at rated load.
