

Plantronics SupraPlus[®] Series

The best just got better! The gold standard in performance and comfort for the most intensive phone user – now improved with wideband audio as standard across the entire series.

The Plantronics SupraPlus headset series has been trusted by enterprises around the world for years, and continues to set the standard for durable, lightweight corded headsets, designed for contact centre and office professionals.

- **Business-critical reliability and comfort.** SupraPlus not only meets or exceeds all specifications set by our existing world-class professional headsets, but this series of headsets also delivers superior all-day, every-day comfort and reliability.
- **Experience full wideband audio.** The entire SupraPlus series takes advantage of wideband VoIP technologies. The extended noise-cancelling boom features new wideband receivers to deliver improved speech clarity and life-like fidelity – which helps to decrease listening errors, repeats and listener fatigue.
- **Comfort, style and, lightweight design.** The light flexible cable and comfortable headband design, as well as the bendable microphone boom, work to enhance audio quality and the user experience.
- **Plantronics compatibility.** With Plantronics Quick Disconnect™ SupraPlus works with all Plantronics audio processors and USB-to-headset adapters. Direct connect solutions are also available for headset-ready phones and agent consoles, providing connection flexibility for your diverse working environment.

Plantronics SupraPlus®

SupraPlus® Key Features

- Experience full wideband audio. The entire SupraPlus series takes advantage of wideband VoIP technologies. The extended noise-cancelling boom features new wideband receivers to deliver improved speech clarity and life-like fidelity – which helps to decrease listening errors, repeats and listener fatigue.
- Excellent receive-side audio quality. A greater receive-side frequency response improves listening intelligibility.
- Comfortable, lightweight design. Adjustable headband, foam ear cushions create a stable, comfortable fit.
- Bendable click-stop microphone boom. Stays in position for clearer voice transmission.
- Small, light, flexible cable. Designed for lightweight durability, with a single-cable design for binaural models.
- Quick call feature. Headband twists out of the way for convenient quick call pick up.
- Monaural or binaural styles. Monaural lets you hear the conversation and what's going on around you. Binaural cuts out distracting background noises.
- Silver version has superior leatherette ear cushions.
