

### HI-CONTACT™ LIQUID COLD PLATES FOR POWER APPLICATIONS

Aavid Thermalloy Hi-Contact™ liquid cold plates are designed for engineers seeking a cost effective solution for medium power density applications. Hi-Contact™ cold plates feature a interlocking groove and tube geometry that improves mechanical robustness and thermal performance over conventional designs.

#### CRITICAL APPLICATION NEED:

- *Cost/performance value*
- *Leak free operation*
- *Thermal performance*

#### FEATURES AND BENEFITS:

- *Economical extruded base and continuous tube construction*
- *Continuous joint free tube reduces chances for leaks*
- *Tube directly contacts the base of the device cooled improving thermal resistance. Thin epoxy joint between tube and plate outperforms 'dry' joints.*
