SCSI/Fibre Channel - Internal Active SCSI Terminator 50Pin Header/F (single-ended)

MODEL NUMBER: **S101-000**

Highlights

- Active terminators include a voltage regulator circuit to compensate for fluctuations in the host adapter

System Requirements

- Internal SCSI 50 position ribbon cable (otherwise known as SCSI 1) - Where a Male 50 position connector is present and requiring termination

Package Includes

- Internal Active SCSI Terminator 50Pin Header/F Single-ended

Description

Tripp Lite's active internal SCSI terminator provides reliable termination for high-speed single ended drive chains. This active terminators include a voltage regulator circuit to compensate for fluctuations in the host adapter. For single ended applications requiring an active terminator with a 50Pin socket. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features

- Active internal SCSI terminator header/f single ended. Tripp Lite active terminators include a voltage regulator circuit to compensate for fluctuations in the host adapter
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest Ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
