

Marking Accessories for IDC DIN Rail Terminal Blocks

Material: Polyamide 6.6
Color: black figures on white background

taris IDC DIN rail terminal blocks, type WKC, can take in marking tags on both sides on top of the block in a three-chamber slot.

1. **Marking strips** made from Polyamide 6.6, suitable for 10 blocks in a row, marked and unmarked.
Marking 1-10, 11-20 etc. up to 991-999.
Type 9705 A/5/10 (5 mm spacing) for terminal blocks of type WKC 1.
Type 9705 A/6/10 (6 mm spacing) for terminal blocks of type WKC 2.5.
2. **Tear-off marking strips** are made from white Polyamide 6.6 and feature 10 marking tags, marked and unmarked. With only 11 stock positions, this marking system reduces the time needed to pick and attach tags and keeps inventory low for additional cost savings.
Type 9704 A. (see master catalog page 1/104)
3. **Single marking tag**, made from white Polyamide 6.6, marked and unmarked.
Type 9705 A.
4. **Marking plates** made from Polyamide 6.6 consisting of 11 marking strips.
Type 9705 A/5/10 (5 mm spacing) for terminal blocks type WKC 1.
Type 9705 A/6/10 (6 mm spacing) for terminal blocks type WKC 2.5.

Marcom 2000 Custom Marking Tag System

Description:	Description:	Part no.
The Wieland Marcom 2000 is a plotter system that uses Wieland's Windows® based software package to interface with a PC, allowing custom printing on standard Wieland marking tags. These standard marking tags provide circuit identification for Wieland DIN rail mount terminal blocks, rectangular multipole connectors and WEB/WEG electronic housings.	Plotter	IP220-WI*
