

DR1030 Series Low Profile Power Inductors

Description

- 125°C maximum total temperature operation
- Low profile surface mount inductors
- 10.3mm x 10.5mm x 3.0mm shielded drum core
- Ferrite core material
- Inductance range from 1.1µH to 150µH
- Current range from 9.5 Amps to 0.68 Amps
- Frequency range up to 1MHz

Applications

- Computer, DVD players, and portable power devices
- Notebook power, LCD panels
- DC-DC converters
- Input/output filter, Buck/Boost regulators

Environmental Data

- Storage temperature range: -40°C to +125°C
- Operating temperature range: -40°C to +125°C (range is application specific)
- Solder reflow temperature: +260°C max. for 10 seconds maximum

Packaging

 Supplied in tape and reel packaging. 1000 parts per reel

Part Number	Rated Inductance (µH)	OCL (1) μH ± 30%	Irms (2) Amperes	Isat (3) Amperes	DCR mΩ@20°C (Typical)	DCR mΩ@20°C (Maximum)	K-factor (4)

⁽¹⁾ Open Circuit Inductance Test Parameters: 100kHz, 0.1V, 0.0Adc.

DR1030 = Product code and size, $xxx = Inductance value in \mu H$, R = decimal point. If no R is present third character = # of zeros. -R suffix = RoHS compliant

⁽²⁾ Irms: DC current for an approximate ΔT of 40°C without core loss. Derating is necessary for AC currents. PCB layout, trace thickness and width, air-flow, and proximity of other heat generating components will affect the temperature rise. It is recommended that the temperature of the part not exceed 125°C under worst case operating conditions verified in the end application.

⁽³⁾ Isat Amperes peak for approximately 35% rolloff max. (@25°C)

⁽⁴⁾ K-factor: Used to determine B p-p for core loss (see graph).

B p-p = K*L*ΔI, B p-p(mT), K: (K factor from table), L: (Inductance in uH), ΔI (Peak to peak ripple current in Amps). Part Number definition: DR1030-xxx-R

COILTRONICS

Mechanical Diagrams

XXX = Inductance in μ H. R = decimal point. If no R is present third character = #of zeros. wwlly = Date Code. R = Revision Level.

This bulletin is intended to present product design solutions and technical information that will help the end user with design applications. Cooper Electronic Technologies reserves the right, without notice, to change design or construction of any products and to discontinue or limit distribution of any products. Cooper Electronic Technologies also reserves the right to change or update, without notice, any technical information contained in this bulletin. Once a product has been selected, it should be tested by the user in all possible applications.

Life Support Policy: Cooper Electronic Technologies does not authorize the use of any of its products for use in life support devices or systems without the express written approval of an officer of the Company. Life support systems are devices which support or sustain life, and whose failure to perform, when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in significant injury to the user.
