

A hidden spring inside the handle and a specially designed ferrule take up all the pressure when the file is driven into the handle; the wood being compressed inside the spring which holds the file tang in a vice-like grip. Complies with the Health and Safety at Work Act 1974.

Handle Length (mm)	File Length (mm)	Order Code	Price Each
82	75-150	155-2246	
100	150-250	155-2048	

Hardwood

Best quality hardwood with strong rolled-on ferrules.
