

## SPECIFICATIONS

- |                              |                                 |
|------------------------------|---------------------------------|
| 1. SAE WIRE SIZE:            | 24 GA.                          |
| 2. NO. OF CONDUCTORS:        | 1                               |
| 3. NO. OF STRANDS:           | 19                              |
| 4. NOM. SIZE OF STRAND:      | 36 AWG                          |
| 5. FINISH OF STRAND:         | SILVER                          |
| 6. INSULATION MATERIAL:      | SILICONE                        |
| 7. INSULATION COLOR:         | WHITE                           |
| 8. NOM. THK. INSULATION:     | 0.5 mm (0.020 IN)               |
| 9. NOM. FINISHED CABLE O.D.: | 1.60 mm (0.063 IN)              |
| 10. TEMPERATURE RANGE:       | -65°C TO 200°C                  |
| 11. VOLTAGE RATING:          | 3,000 VOLTS DC                  |
| 12. UL TYPE:                 | UL3239                          |
| 13. PACKAGING:               | 10 FOOT COIL IN 4" X 6" POLYBAG |

|                                                                                                                       |                                       |  |                                                                                                       |  |                                                                                                                    |  |                                 |                                         |                                                             |                                     |  |                                                |
