Manufacturer of technically advanced
flashlights and watertight
protector cases

Large Flashlights

#4100 AQUA KINGLITE™

The Aqua KingLite™ is submersible to 500 feet (150 meters) as it is the diving version of the King PelicanLite™. Features include a dual filament Xenon back-up safety lamp, operating during 30 hours each filament (60 hours in total). It includes a patented shock absorbing internal battery module that protects 8-D cells Alkaline batteries (not included) from hard abuse. You break it, we replace it... forever.
