

Hand Soldering

STDC Desolder Cartridge, Standard

STDC-104

Inside diameter 1.02mm (0.04"), outside diameter 1.78mm (0.070")

Features and Benefits:

The STDC tips are highly durable and designed for high heat transfer, making desoldering on multi-layer boards much easier. For use with the MX Series and Plated-Through-Hole Component Desoldering System with the MX-DS1 Desoldering Gun Hand-piece. 700 Series for most standard applications.
