Usage Instructions

The optimal choice for use in homes, schools, and hobbyists. Based on corn, this product biodegrades. It gives off a mild non-offensive sweet smell when heated, making the product suitable for home use. It does not require a heated print bed, and it easily adheres to masking tapes. It is very hard, acetone resistant, and when properly utilized can achieve faster print speeds and lower layer heights than [ABS](#)

Features & Benefits

- PLA
- 1.75mm and 3.0mm diameters
- Vivid colors
- Low Diameter variance
- High Purity USAmade PLA pellets
- Colors as unique as Light Skin, Metallic Gold, Metallic Silver, Glow In The Dark, etc.
- 0.25 KG spools
- 0.50 KG spools
- 1.00 KG spools
