Similar to illustration

The heat-shrinkable TwinMark sleeve is printable on 2 sides and can be used for marking and insulating conductors and cables between 1.2 and 24 mm in diameter. The flexible, heat-shrink material enables a firm, perfect fit around the conductor and therefore saves space.

**Advantages:**

- Application in extremely confined spaces
- Printing on 2 sides for better legibility
- Printed sleeves on a continuous backing
- Can be shrunk with conventional hot-air guns

TwinMark HSS standard version

Delivered form: Leporello folding
