

Connect High-Density I/O to Real World Inputs and Outputs

This section describes two solutions to connect Omron's wide range of high-density PLC modules, remote I/O and network I/O products. We offer a range of wire and relay terminal blocks and pre-terminated cables to simplify your installation.

Solutions

- Wire Terminal Blocks
- Relay Terminal Blocks

Depending on the application and the high-density module selected, a mix of wire terminal blocks and relay terminal blocks can be used together.

Advantages

Here are the main advantages to using these wiring solutions:

- Reduce labor costs
- Eliminate wiring errors
- Conserve PLC rack capacity and panel space
- Reduce overall wiring back to the PLC

Relay Terminal Blocks: G7 series

Easy-to-Configure Wiring Solutions Reduce Time, Materials, Costs of Installation, and Troubleshooting

Clean, Orderly Control Cabinets

When you plan the wiring for a control system, the fewer cables coming into the control cabinet the better. This reduces the costs of wiring, tagging and verification at installation and simplifies troubleshooting to reduce downtime. Omron's high-density I/O modules and other socket-based I/O products use pre-terminated cables to eliminate wiring errors between terminal blocks and the PLC modules.

Connector Types on High-Density Modules

Two types of sockets are used on Omron's high-density I/O modules: Fujitsu style sockets with flange screws and MIL style with locking tabs. The ordering tables specify the cable with the proper connector to match the socket on each model.

Issues to Consider

- Distance between block and controller: Wire terminal blocks and relay terminal blocks allow up to 10 meters distance from the controller card.
- Number of I/O transmitted: Wire terminal blocks and relay terminal blocks can transmit up to 48 I/O on a single cable.
- Cabling: Wire terminal blocks and relay terminal blocks have pre-made cables that plug into the high-density module or block connector at one end and a single or multiple connectors for the blocks.

XW2-Series Wire Terminals

Use XW2 series wire terminals to convert wiring from input and output devices to pre-terminated cables. These terminals use XW2□ cables.

Description	Appearance	Contacts	Part Number
M3 screws, no terminal identification strip	 XW2B-□□G4 (Regular M3 screws)	20	XW2B-20G4
M3.5 screws and protected terminal identification strip		40	XW2B-40G4
	 XW2B-□□G5 (M3.5 screws)	60	XW2B-60G4
		20	XW2B-20G5
		40	XW2B-40G5
		60	XW2B-60G5
M3 Phillips screws and protected terminal identification strip	 XW2D-□□G6 (M3 Phillips screws)	20	XW2D-20G6
ON/OFF status indicators; terminal identification strip	 XW2C-20G5-IN16 XW2C-20G6-IO16	20	XW2C-20G5-IN16
Use short bars to handle PLC input or output units; terminal identification strip; ON/OFF status indicators		20	XW2C-20G6-IO16
Three-tier block for easy wiring; equipped with common terminal on the power supply tier; terminal identification strip	 XW2E-20G5-IN16		XW2E-20G5-IN16

CJ-Series Basic I/O Unit (32 points)

CJ1W-ID231 (Fujitsu connector/input unit)
CJ1W-OD231 (Fujitsu connector/output unit)
CJ1W-ID232 (MIL connector/input unit)
CJ1W-OD232 (MIL connector/output unit)

CJ-Series Basic I/O Unit (64 points)

CJ1W-ID261 (Fujitsu connector/input unit)
CJ1W-OD261 (Fujitsu connector/output unit)
CJ1W-MD261 (Fujitsu connector, I/O unit)
CJ1W-ID262 (MIL connector/input unit)
CJ1W-OD263 (MIL connector/output unit)
CJ1W-MD263 (MIL connector, I/O unit)
CJ1W-MD563 (MIL connector, I/O unit)

G7 Series Relay Terminals

Use G7TC, G70A, and G70D relay terminals to buffer and isolate input and output for the PLC module. Models with interchangeable relays allow a mix of SSR and electromechanical relays to match the switching frequency of the attached device. The G79 cables provide error-proof wiring between high-density I/O module and relay terminals.

Description	Specifications	Relays	Part Number
Relay input terminal	NPN, 10 mA/pt, AC inputs	G7T relays installed	G7TC-IA16 AC110/120V
Relay input terminal	NPN, 10 mA/pt., DC inputs	G7T relays installed	G7TC-ID16 DC24V
Relay output terminal	NPN, 10 A at 250 VAC/30 VDC	G7T relays installed	G7TC-OC16 DC24V
Relay output terminal	PNP, 10 A at 250 VAC/30 VDC	G7T relays installed	G7TC-OC16-1 DC24V
Relay terminal base	NPN/PNP, 100 mA at 240 VAC/110 VDC	Order separately see page D-4	G70A-ZIM16-5 DC24V
Relay terminal base	NPN, 10 A 380 VAC/125 VDC	Order separately see page D-4	G70A-ZOC16-3 DC24V
Relay terminal base	PNP, 10 A 380 VAC/125 VDC	Order separately see page D-4	G70A-ZOC16-4 DC24V
Covered output terminal	NPN, 5 A max. 8 pt ON	G6D relays installed	G70D-SOC16 DC24
Covered output terminal	PNP, 5 A max. 8 pt ON	G6D relays installed	G70D-SOC16-1 DC24
Vertical output terminal	NPN, 5 A max. 8 pt ON	G6D relays installed	G70D-VSOC16 DC24
Vertical output terminal	PNP, 5 A max. 8 pt ON	G6D relays installed	G70D-VSOC16-1 DC24

Relays/SSRs for G70A

Classification	G70A Terminal Base	PCB Relay	Solid State Relay
Input	G70A-ZIM16-5 DC24V	G2R-1A3-SND DC24V G2R-13-SND DC24V	G3R-IAZR1SN AC100-240 G3R-IDZR1SN DC12-24 G3R-IDZR1SN DC5
Output	NPN: G70A-ZOC16-3 DC24V PNP: G70A-ZOC16-4 DC24V	G2R-1-SND DC24 G2R-1-SND DC12	G3R-OA202SZN DC5-24 G3R-ODX02SN DC5-24 G3R-OD201SN DC5-24

Mixed I/O Modules

High-density modules that combine both inputs and outputs into the same module contain “MD” in the part number. They offer flexibility to match your exact needs by connecting a combination of wire terminals and relay terminals. Choose wire terminals to simplify input wiring; use relay terminals to boost the load of PLC output signals or match the switching frequency by using solid state relays instead of electromechanical relays.

AC Inputs for DeviceNet

To support intelligent local control, Omron offers a pre-terminated cable dedicated to AC inputs that connect AC relay terminal blocks with a compact DeviceNet input node. It offers individually replaceable relays to expedite servicing.

Shorten Your Search

Here are the steps to find just the right solution for your PLC system and module:

- Find your PLC system or network type
- Choose the number of I/O on the PLC module or network block: 96, 64, or 32
- Look for the high-density I/O module part number in the left column
- Choose wiring terminal block or relay terminal block
- The configuration options for each module are illustrated then shown with the necessary quantities and part numbers of cables and terminal blocks to complete the installation

Certain Terms and Conditions of Sale

1. **Offer; Acceptance.** These terms and conditions (these "Terms") are deemed part of all catalogs, manuals or other documents, whether electronic or in writing, relating to the sale of goods or services (collectively, the "Goods") by Omron Electronics LLC and its subsidiary companies ("Seller"). Seller hereby objects to any terms or conditions proposed in Buyer's purchase order or other documents which are inconsistent with, or in addition to, these Terms. Please contact your Omron representative to confirm any additional terms for sales from your Omron company.
2. **Prices.** All prices stated are current, subject to change without notice by Seller. Buyer agrees to pay the price in effect at time of shipment.
3. **Discounts.** Cash discounts, if any, will apply only on the net amount of invoices sent to Buyer after deducting transportation charges, taxes and duties, and will be allowed only if (i) the invoice is paid according to Seller's payment terms and (ii) Buyer has no past due amounts owing to Seller.
4. **Orders.** Seller will accept no order less than \$200 net billing.
5. **Governmental Approvals.** Buyer shall be responsible for, and shall bear all costs involved in, obtaining any government approvals required for the importation or sale of the Goods.
6. **Taxes.** All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Seller or required to be collected directly or indirectly by Seller for the manufacture, production, sale, delivery, importation, consumption or use of the Goods sold hereunder (including customs duties and sales, excise, use, turnover and license taxes) shall be charged to and remitted by Buyer to Seller.
7. **Financial.** If the financial position of Buyer at any time becomes unsatisfactory to Seller, Seller reserves the right to stop shipments or require satisfactory security or payment in advance. If Buyer fails to make payment or otherwise comply with these Terms or any related agreement, Seller may (without liability and in addition to other remedies) cancel any unshipped portion of Goods sold hereunder and stop any Goods in transit until Buyer pays all amounts, including amounts payable hereunder, whether or not then due, which are owing to it by Buyer. Buyer shall in any event remain liable for all unpaid accounts.
8. **Cancellation; Etc.** Orders are not subject to rescheduling or cancellation unless Buyer indemnifies Seller fully against all costs or expenses arising in connection therewith.
9. **Force Majeure.** Seller shall not be liable for any delay or failure in delivery resulting from causes beyond its control, including earthquakes, fires, floods, strikes or other labor disputes, shortage of labor or materials, accidents to machinery, acts of sabotage, riots, delay in or lack of transportation or the requirements of any government authority.
10. **Shipping; Delivery.** Unless otherwise expressly agreed in writing by Seller:
 - a. Shipments shall be by a carrier selected by Seller;
 - b. Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer;
 - c. All sales and shipments of Goods shall be FOB shipping point (unless otherwise stated in writing by Seller), at which point title to and all risk of loss of the Goods shall pass from Seller to Buyer, provided that Seller shall retain a security interest in the Goods until the full purchase price is paid by Buyer;
 - d. Delivery and shipping dates are estimates only.
 - e. Seller will package Goods as it deems proper for protection against normal handling and extra charges apply to special conditions.
11. **Claims.** Any claim by Buyer against Seller for shortage or damage to the Goods occurring before delivery to the carrier must be presented in writing to Seller within 30 days of receipt of shipment and include the original transportation bill signed by the carrier noting that the carrier received the Goods from Seller in the condition claimed.
12. **Warranties.** (a) **Exclusive Warranty.** Seller's exclusive warranty is that the Goods will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Seller (or such other period expressed in writing by Seller). Seller disclaims all other warranties, express or implied. (b) **Limitations.** SELLER MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE GOODS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE GOODS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. Seller further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Goods or otherwise of any intellectual property right. (c) **Buyer Remedy.** Seller's sole obligation hereunder shall be to replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Good or, at Seller's election, to repay or credit Buyer an amount equal to the purchase price of the Good; provided that in no event shall Seller be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Goods unless Seller's analysis confirms that the Goods were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any goods by Buyer must be approved in writing by Seller before shipment. Seller shall not be liable for the suitability or unsuitability or the results from the use of Goods in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.
13. **Damage Limits; Etc.** SELLER SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE GOODS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY. Further, in no event shall liability of Seller exceed the individual price of the Good on which liability is asserted.
14. **Indemnities.** Buyer shall indemnify and hold harmless Seller, its affiliates and its employees from and against all liabilities, losses, claims, costs and expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Seller is a party) which arises or is alleged to arise from Buyer's acts or omissions under these Terms or in any way with respect to the Goods. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Seller and defend or settle any action brought against Seller to the extent that it is based on a claim that any Good made to Buyer specifications infringed intellectual property rights of another party.
15. **Property; Confidentiality.** The intellectual property embodied in the Goods is the exclusive property of Seller and its affiliates and Buyer shall not attempt to duplicate it in any way without the written permission of Seller. Notwithstanding any charges to Buyer for engineering or tooling, all engineering and tooling shall remain the exclusive property of Seller. All information and materials supplied by Seller to Buyer relating to the Goods are confidential and proprietary, and Buyer shall limit distribution thereof to its trusted employees and strictly prevent disclosure to any third party.
16. **Miscellaneous.** (a) **Waiver.** No failure or delay by Seller in exercising any right and no course of dealing between Buyer and Seller shall operate as a waiver of rights by Seller. (b) **Assignment.** Buyer may not assign its rights hereunder without Seller's written consent. (c) **Amendment.** These Terms constitute the entire agreement between Buyer and Seller relating to the Goods, and no provision may be changed or waived unless in writing signed by the parties. (d) **Severability.** If any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (e) **Setoff.** Buyer shall have no right to set off any amounts against the amount owing in respect of this invoice. (f) As used herein, "including" means "including without limitation".

Certain Precautions on Specifications and Use

1. **Suitability of Use.** Seller shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Good in the Buyer's application or use of the Good. At Buyer's request, Seller will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Good. This information by itself is not sufficient for a complete determination of the suitability of the Good in combination with the end product, machine, system, or other application or use. The following are some examples of applications for which particular attention must be given. This is not intended to be an exhaustive list of all possible uses of this Good, nor is it intended to imply that the uses listed may be suitable for this Good:
 - (i) Outdoor use, uses involving potential chemical contamination or electrical interference, or conditions or uses not described in this document.
 - (ii) Energy control systems, combustion systems, railroad systems, aviation systems, medical equipment, amusement machines, vehicles, safety equipment, and installations subject to separate industry or government regulations.
 - (iii) Systems, machines and equipment that could present a risk to life or property. Please know and observe all prohibitions of use applicable to this Good.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE SELLER'S PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.
2. **Programmable Products.** Seller shall not be responsible for the user's programming of a programmable Good, or any consequence thereof.
3. **Performance Data.** Performance data given in this catalog is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Seller's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Seller's Warranty and Limitations of Liability.
4. **Change in Specifications.** Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Good may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Seller's representative at any time to confirm actual specifications of purchased Good.
5. **Errors and Omissions.** The information in this catalog has been carefully checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors, or omissions.

Complete "Terms and Conditions of Sale" for product purchase and use are on Omron's website at www.omron.com/oei – under the "About Us" tab, in the Legal Matters section.

ALL DIMENSIONS SHOWN ARE IN MILLIMETERS.

To convert millimeters into inches, multiply by 0.03937. To convert grams into ounces, multiply by 0.03527.
