NORTH Butyl Gloves, Mediumweight, Smooth, Size 10

[View Larger](#)
NORTH

Highest permeation resistance available to gas or water vapors. Resist common acids and alcohols.

Specifications: Durable, cement-dipped butyl rubber offers superior resistance to most chemicals. Comfortable, curved finger and hand design. Your choice of smooth or rough "**Grip-Saf**" palm for better grip.

Suggested For: Dioxane, ketones, acetone, esters, aldehydes, alcohols

and most organic acids or caustics.

Please Specify a Size: 7, 8, 9, 10, 11.
