High performance toggle switches - threaded bushing Ø 11,9 (15/32)

Distinctive features

A

☐ Approvals

CECC 96201-005
CECC 96201-008

MIL Standards MIL STD 3950 and MIL STD 83731

This range of professional toggle switches is suitable for use in military and other high specification environments.

☐ Contacts

Highly reliable contacts suitable for low level applications or power applications

☐ Pinned lever

The base of the switch lever is pinned to the bushing, thus earthing the lever to the bushing. This also provides strain relief to protect the switch if accidentally knocked.

☐ Double shell case

For high mechanical strength and high electrical insulation.

☐ Compact size

The small rear end of the switch allows space saving behind the panel.

☐ Finish

Black finish on body, bushing, lever and hardware.

☐ Sealing

Panel sealed to IP 67, these switches are frontal sealed by two O-rings and have full rear end sealing.

☐ Accessories

A comprehensive range of protection boots (both full and half length), locking levers and security caps are available.
