Heat shrink tubing

You are looking for the heat shrink tubing meeting your application requirements best?

Rubber Tubing, PTFE FE9

FE, Article number: 178-00058

- Thin walled rubber tubing made of PTFE
- Transparent or coloured
- Very high temperature resistance
- High abrasion resistance
- Good resistance to aggressive chemicals
- Available on reels

FE is ideal for high temperature applications, when resistance to aggressive fluids is required for example in high performance hose applications. FE tubing is also used to reduce movement due to friction, covering cable or wire.

▼ Base Data	
Colour	Pink (PK)
Manufacturer Short Description calculated	FE9 PTFE PK
Product Family	FE
Product Group	Rubber Tubing, PTFE
Type	FE9PK
▼ Product Dimensions	
Supplied Ø D	0.89 mm
Wall (WT)	0.25 mm
▼ Logistic and Packaging	
EAN / GTIN	5022660162732
Quantity per	Reel
Reel Length	500.0 m
▼ Material and Specifications	
Dielectric Strength	55 kV/mm according to IEC 60684 P2
Flammability	UL94 V0
Halogenfree	No
LFH	No
Material	PTFE
Material	Polytetrafluoroethylene (PTFE)
Operating Temperature	-65 °C to +250 °C, intermittent +350 °C
Specification	DEF STAN 59-15 Type D6, BS-2848 Type 6 250T
▼ More Information	
ETIM 5.0	EC002254
ETIM 6.0	EC002254
