

# Cabinet Product Assortments

Ohmite Cabinet Product Assortments conveniently house some of our most popular products in sturdy, wall-mountable steel cabinets. Each cabinet contains 20 clear plastic drawers which can be subdivided by 2, making a total of 40 slots available. Upon opening the latched front cover, users will see an easy reference key describing the contents of each drawer. Every part number is a standard part, found in stock through our Distributor network. Smaller parts are contained in plastic vials to help users keep everything organized and simple to locate. CAB-20 contains no products at all, just vials, so you can use it for any parts that fit in the 6" deep by 3" wide by 2" tall drawers.

## BRIEF CONTENTS DESCRIPTION (details below)

### CAB-SMDMTLFL

Contains a range of SMD Metal Foil Current Sense resistors drawn from our MCS and FC SL Series'. Resistance values as low as 0.001 ohms and power ratings from 1 to 5 watts.

### CAB-10AXLCS

Contains axial leaded current sense resistors drawn from our 10 Series and 14AFR Series. Power ratings from 1 to 5 watts and resistance values down to 0.004 ohms.

### CAB-LVK

Contains a range of 4-terminal SMD, thick film current sense resistors. Power range from 0.50 to 2 watts and resistance values down to 0.001 ohms.

### CAB-TBHHS and CAB-TCHHS

Contain our two TO-220 power resistor series' along with heatsinks designed for use with the TO-220 package. From 0.05 to 2000 ohms.

### CAB-TDHHS

Contains our TO-263 SMD power resistor product plus DA and DV type heatsinks for the TO-263 package. From 0.10 to 1000 ohms.

### CAB-HS1

Contains a range of heatsinks for use with TO-220, TO-247, and TO-263 package types.

### CAB-20

Is an empty cabinet for use with other parts around your design laboratory. It contains 20 plastic vials in case you need to organize small parts and 3 blank templates for you to fill in the contents of each drawer. Extra templates are provided in case you want to retain a copy somewhere away from the kit, or in case you decide to change the contents at a future date.
