

QUAD 2-INPUT GATES

PLASTIC mW MRTL MC700P/800P series

MC717P • MC817P

Four 2-input positive logic NOR gates in a single package. Each may be used independently, paralleled for increasing the number of inputs (subject to loading rules), or cross-coupled to form bistable elements.

NUMBER IN PARENTHESES
INDICATES LOADING FACTOR

$t_{pd} :: 27\text{ ns}$
 $P_0 :: 20\text{ mW (Input High)}$
 $5.0\text{ mW (Inputs Low)}$

SWITCHING TIMES TEST CIRCUIT AND WAVEFORMS
