

**Part Number :       MA330026**

**dsPIC33F MC 28P QFN to 100P Plug-in-Module**

This PIM comes with a 28-pin dsPIC33FJ16MC102 QFN device. It is intended to be used to control the Microchip MCHV (DM330023), MCLV (DM330021) or MCSM (DM330022) motor control development boards. Notice: use of this PIN with the MCHV development board DM330023 Revision 4 or earlier (see product label), must be upgraded to support this PIM. Please contact the local Microchip sales office to obtain this free upgrade.
