

60 x 30mm
(2.36" x 1.18")

A line graph showing the relationship between Static Pressure (inches of water) and Air Flow (CFM) for the 1000 CFM Model. The y-axis represents Static Pressure, ranging from 0.00 to 0.12 in increments of 0.02. The x-axis represents Air Flow, ranging from 0 to 12 in increments of 3. The curve starts at approximately 0.11 inches of water static pressure at 0 CFM and decreases as air flow increases, reaching 0.00 inches of water static pressure at approximately 11 CFM.

Air Flow (CFM)	Static Pressure (inches of water)
0	0.11
3	0.045
6	0.035
9	0.020
11	0.00
