- Omnidirectional pattern provides optimal in-building coverage
- Credit card thin ceiling mounted antenna available in 450, 850, 920, 1800, 1900, and 2400 MHz frequency ranges
- Toroidal field pattern provides omnidirectional coverage in any plane around the long axis, and two lobes in any plane parallel to the long axis

Specifications

Model	Dual-Band Microsphere™
Description	900 & 1800 MHz Dual-band MicroSphere™
Frequency Range	880 - 960 MHz
Gain	3 dBi
Connector Type	SMA-Female
Max. Input Power	50 watts
