

Mag Lamp D21000-01

New improved arm

Sturdy metal clamp

Ergonomic design

Product description:

The practical, clean white magnifying lamp comes with a semi-rimless 13cm prescription-grade acrylic lens with removable lens cover to give you a wider viewing area and a 11w Daylight™ bulb. This unique product also features a completely redesigned arm and a new head-joint to guarantee durability. Supplied with table clamp. Optional accessories available.

Features:

- High quality inspection lamp
- Soft 11w Daylight™ energy saving bulb (60w equiv.) reduces eye strain and glare
- 13cm semi-rimless acrylic lens to see intricate details in comfort
- High quality metal arm for optimal flexibility and durability
- Sturdy metal clamp to attach the lamp to a desk or a table
- Practical lens cover to protect the lens from sun and dust

Technical information:

- Heavy-duty metal arm with internal safety springs
- Light: 11w Daylight™ bulb (D15110), 75w equivalent
- Lens: 13cm diameter, 1.75X magnification (3 diopter)
- Supplied with table clamp
- Color: White

Box content:

- Lamp comes complete with 11w Daylight™ energy saving tube, sturdy metal clamp and lens cover
