

PS4200 Evaluation Kit

1.0 INTRODUCTION

The PS4200EV evaluation kit provides the opportunity to evaluate the PS402 IC quickly and easily. The evaluation kit contains all of the hardware and software necessary to implement a fully functional smart battery and demonstrate all operating modes. The included PS4200 module is a complete smart battery controller subsystem, based on the Microchip PS402 battery manager with patented Accuron™ technology. The module is designed to operate in a battery pack consisting of six (6) to ten (10) series connected Ni-based cells. The module consists of the Microchip PS402 battery manager IC, with a four LED SOC display and an optional connection for an external thermistor.

The included PowerTool™ Windows®-based software can be used to modify the programming in the pre-programmed evaluation module. Although many interdependent parameters must be taken into account when programming the battery manager, the process is simplified with the PowerTool configuration wizard.

1.1 Evaluation Kit Contents

The PS4200 Evaluation Kit contains the following hardware, software, and documentation:

- PS4200
- PS041
- PS4200EV CD-ROM
- Power Supply Unit (120V input, 12V output)
- RS-232 Cable

The PS4200EV CD-ROM contains:

- PS040 PowerTool Development Software
- PS041 Data Sheet (DS40234)
- PS402 Data Sheet (DS21766)
- PS4200 Data Sheet (DS21768)
- This Product Brief (DS21787)

2.0 INSTALLATION

The PowerTool software provided on the disk is based on the Windows operating system. To install the software, copy the executable from the CD to a directory of choice on a PC hard drive. PowerTool cannot be run from a CD-ROM or other read-only media.

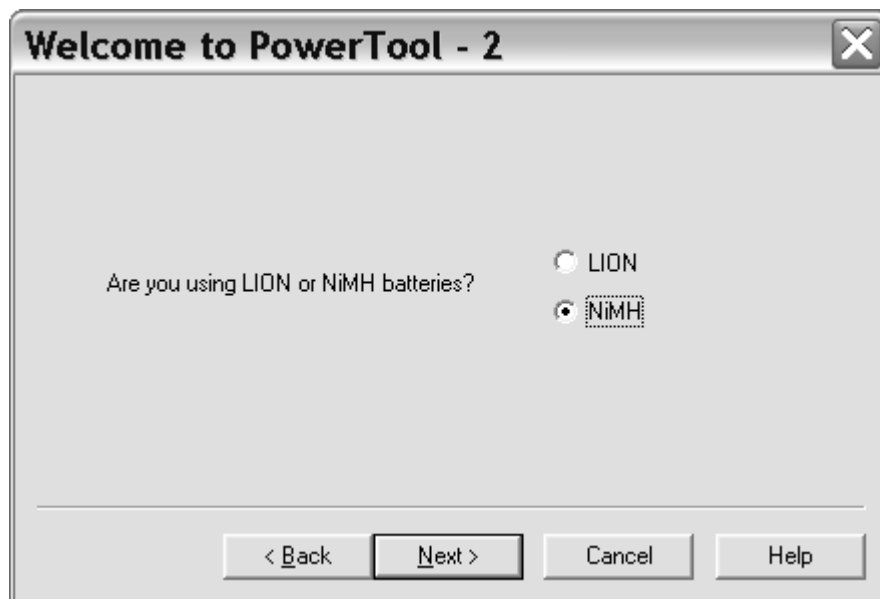

- Double click the PowerTool software executable icon to start the software.

- A dialog box appears to start the pack configuration wizard. Click Next.

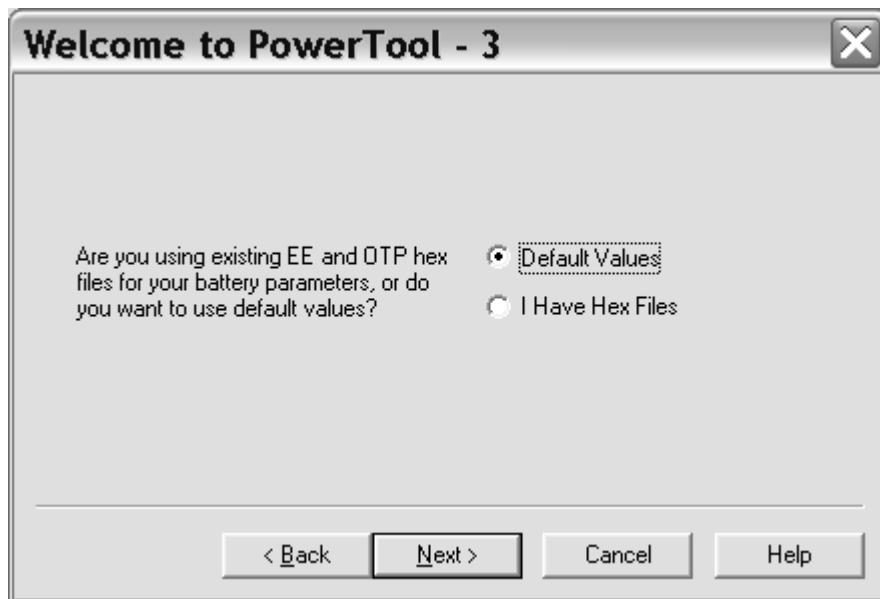

- Choose NiMH and click Next.

PS4200EV

- Choose Default Values and click Next.

- Click Finish. The wizard will begin.

- Follow instructions in the wizard to complete the configuration of a PS4200 pack.

3.0 DEVELOPMENT TOOL SUMMARY

Microchip provides all the necessary hardware and software to enable easy tailoring of battery control algorithm parameters, and cell performance models, to meet spe-

cific application requirements and attain the highest accuracy available anywhere. Table 3-1 summarizes the development tool offering from Microchip to support the PS4200. Please refer to the Microchip web site for ordering information and design documentation (including schematics) at www.microchip.com.

TABLE 3-1: MICROCHIP DEVELOPMENT TOOL SUMMARY

Development Tool	Use
PowerInfo™ hardware with PowerTool™ software (PS041)	Read and write Smart Battery data values, EEPROM programming, OTP EPROM programming
PowerCal™ hardware with PowerTool software (PS042)	Read and write Smart Battery data values, EEPROM programming, OTP EPROM programming, pack calibration, pack test

3.1 Reference Documents

This data sheet provides an overview of the PS4200 Battery Manager Module. For further information on the PS402 and development tool operations, please refer to the following documents available for download at www.microchip.com.

TABLE 3-2: MICROCHIP REFERENCE DOCUMENTS

Document Number	Documents Available
DS21766	PS402 Single Chip Battery Manager - Nickel Chemistries Data Sheet (IC Products)
DS40234	PS041 PowerInfo Configuration Interface Product Brief
DS40237	PS042 PowerCal Calibration Platform Data Sheet

TO OUR VALUED CUSTOMERS

It is our intention to provide our valued customers with the best documentation possible to ensure successful use of your Microchip products. To this end, we will continue to improve our publications to better suit your needs. Our publications will be refined and enhanced as new volumes and updates are introduced.

If you have any questions or comments regarding this publication, please contact the Marketing Communications Department via E-mail at **docerrors@mail.microchip.com** or fax the **Reader Response Form** in the back of this data sheet to (480) 792-4150. We welcome your feedback.

Most Current Data Sheet

To obtain the most up-to-date version of this data sheet, please register at our Worldwide Web site at:

<http://www.microchip.com>

You can determine the version of a data sheet by examining its literature number found on the bottom outside corner of any page. The last character of the literature number is the version number, (e.g., DS30000A is version A of document DS30000).

Errata

An errata sheet, describing minor operational differences from the data sheet and recommended workarounds, may exist for current devices. As device/documentation issues become known to us, we will publish an errata sheet. The errata will specify the revision of silicon and revision of document to which it applies.

To determine if an errata sheet exists for a particular device, please check with one of the following:

- Microchip's Worldwide Web site; <http://www.microchip.com>
- Your local Microchip sales office (see last page)
- The Microchip Corporate Literature Center; U.S. FAX: (480) 792-7277

When contacting a sales office or the literature center, please specify which device, revision of silicon and data sheet (include literature number) you are using.

Customer Notification System

Register on our web site at **www.microchip.com/cn** to receive the most current information on all of our products.

Information contained in this publication regarding device applications and the like is intended through suggestion only and may be superseded by updates. It is your responsibility to ensure that your application meets with your specifications. No representation or warranty is given and no liability is assumed by Microchip Technology Incorporated with respect to the accuracy or use of such information, or infringement of patents or other intellectual property rights arising from such use or otherwise. Use of Microchip's products as critical components in life support systems is not authorized except with express written approval by Microchip. No licenses are conveyed, implicitly or otherwise, under any intellectual property rights.
