

SFH6106/6156/6186/6206/6286

5.3 kV TRIOS[®] High Reliability
Optocouplers

FEATURES

- SMD Versions of SFH610, 615, 618, 620, 628
- Available on Tape and Reel
—To Order Use Suffix “T”
- Field Effect Stable by TRIOS
(TTransparent IOn Shield)
-  VDE 0884 Available with Option 1
- U.L. Approval, File #E52744

DESCRIPTION

The SFH6106, 6116, 6156, 6186, 6206, 6286 families of optocouplers are lead bent for SMD applications. They are electrically equivalent to the SFH610, 615, 618, 620, and 628 families of optocouplers.
