Items 1 thru 1 displayed.

Part Number : TC2030-CLIP-3PACK - Tag-Connect Clip Board (pkg of 3)

The Tag-Connect Clip Board attaches to the alignment pins of a Tag-Connect No Legs cable such as TC2030-MCP-NL. The Clip Board can be pressed onto the alignment pins from underneath the circuit board, providing a temporary connection for debugging purposes. Then you have the best of both worlds: a small PCB footprint and a reliable debugging connection. Note: Clip Boards are small and easily misplaced, so we include 3 in the package.

Tag-Connect is a trusted Third Party tool provider
