ITW CHEMTRONICS® WEBSITE

TECHNOLOGY LEADERSHIP THAT PRODUCES THE WORLD'S CLEANEST SWABS

At Coventry™, we understand exactly what you want from your swabs & wipes:

RELIABILITY AND PERFORMANCE. Products that help keep contamination out of your processes, reduce yield hits, and perform consistently shipment-to-shipment.

CLEANROOM QUALITY AND CONSISTENCY. Coventry makes the only patented swab, thanks in large part to engineered clean raw materials. Most swab and wiper components are laundered first in our Class M1 cleanroom.

EXCLUSIVE POST-MANUFACTURING PROCESSES. Coventry's Aqua-Prime™ process reduces total contamination up to 50%. Our C-Prime™ process cuts non-volatile residue up to 40%—and wiper edges are sealed using our proprietary process.

WIDEST SELECTION OF CRITICAL APPLICATION SWABS. Choose wrapped fabric for the cleanest swabs in the world. Also, select from sealed fabric, wrapped and sealed foam, plus our static control products.

PRODUCTS THAT BRING VALUE, NOT CONTAMINATION, TO YOUR PROCESSES. Strict quality controls throughout ensure consistent reliability. Clean and static-free packaging seals in contamination-free quality from our cleanroom to yours.

DEDICATED CUSTOMER SUPPORT. Get the latest Technical Data Sheets anytime by Fax On Demand: (770) 426-5447. Live support is available via our Technical Hotline at 1-800-TECH-401. We even custom engineer products for special needs.

DIAMOND SWABS™

Wrapped polyester swabs guaranteed to stand between you and a major yield hit.

51353ESD

51353

Designed for ultra-critical applications where contamination is the utmost concern. The patented Diamond Swab™ has a wrapped tubular knit head to create the cleanest swab in the world.

No other swab is as low in NVR, ionic and particle contamination. No-edge seamless head design is an exclusive.

Specify the Aqua-Prime™ process for the cleanest swab in the world.

Swab Length	Handle Width	Head Length	Head Thickness	Head Width	Handle Material	Head Material
2.8" 7.1 cm	0.10" 2.6 mm	0.78" 19.8 mm	0.16" 4.1 mm	0.16" 4.1 mm	ESD	tubular knit polyester
2.8" 7.1 cm	0.10" 2.6 mm	0.78" 19.8 mm	0.16" 4.1 mm	0.16" 4.1 mm	glass filled nylon	tubular knit polyester

SEALED POLYESTER SWABS

*Very clean and durable
all-purpose swabs.*

An exceptionally clean swab produced by Coventry's proprietary process of thermoforming and welding the swab head. Featuring either knit or nonwoven fabric heads, these swabs are acid and solvent resistant. Sealed edges build in high strength with no loose fibers or particulates. Class M1 processing gives you the lowest ionic, non-volatile residue and particle contaminants.

Aqua-Prime™ process available on all sealed polyester swabs.

WRAPPED POLYESTER SWABS

*Cleanroom washed fabric
formed into a unique solvent
retaining swab.*

Engineered for unique applications requiring a combination of high solvent retention with the cleanliness of Class M1 processed polyester. Seamless design is lint free. High-strength, adhesive-free swab, durable head construction.

Aqua-Prime™ process available on all wrapped polyester swabs.

GMR STATIC CONTROL SWABS

Protects components from static contamination.

Engineered to eliminate damage from static electricity. Now you have a choice in specifying the ultra-clean static dissipative or conductive swab. The handles of these swabs will dissipate 99% of a 5,000 volt (5 KV) charge in 0.01 seconds for conductive and in less than 0.5 seconds for ESD. Our handles are also solvent and acetone resistant, leaving behind no residue.

Choose between our Class M1 laundered polyester or 100 pore per inch ultra-clean foam.

Aqua-Prime™ process available on all polyester swabs.

WRAPPED FOAM SWABS

Durable wrapped foam swabs designed for precise applications.

Our wrapped foam swabs provide good particle entrapment and work well as solvent applicators. The small tips on many of the styles allow use in very tight tolerance areas. With the most durable head of any foam swabs, wrapped foam delivers superior abrasion resistance for removal of tough contaminants. Wicking action pulls solvent from surfaces.

C-Prime Specify C-Prime™ process for super-critical applications.

SEALED FOAM SWABS

Economical general purpose swabs. Best solvent retention.

The most cost-effective swabs for general purpose applications. 100 ppi reticulated medical grade foam provides excellent particle entrapment. The open cell structure gives the best solvent holding ability of any style of swab.

These swabs are free of adhesives or binders that could contaminate your process. Fiberless construction does not generate particles.

CPrime specify C-Prime™ process for super-critical applications.

CLEANROOM WIPES

***The cleanest wipers
you can buy.***

Add an extra level of protection with Coventry wipers and chamois products. Our exclusive edge sealing process gives you the advantage of the lowest contamination levels available.

All laundered wipes are processed in our Class M1 cleanrooms.
