

ARCHOS 80 Titanium

ARCHOS
elements

Equipped with the latest mobile technology, ARCHOS is proud to release the ARCHOS 80 Titanium. Slim and light with elegant aluminium finish, the ARCHOS 80 Titanium is perfectly designed to read e-books or e-magazines. Its sharp and clear IPS multitouch screen delivers amazing vivid colors and impressive wide viewing angles. To get the speediest interface, the tablet is powered by a fast 1.6 GHz Dual-Core CPU coupled with a quad-core graphic processor. Running the optimised mobile operating system Android 4.1 "Jelly Bean", it is the best combination between very high performance hardware and intuitive software.

Key features

- ✓ 8" capacitive multitouch screen with IPS display technology
- ✓ Google™ certified with full access to the Google Play™ Store and its 700.000 apps to download
- ✓ Perfectly designed to read e-magazines or e-books
- ✓ Aluminium back casing
- ✓ Front and back cameras
- ✓ 8 GB flash memory with an expandable Micro SD Slot up to 32 GB

IPS screen

The ARCHOS 80 Titanium is equipped with an impressive 8 " IPS screen that brings you amazing image quality & extra wide viewing angles. This next generation LCD delivers excellent screen sharpness and vivid colours. Thanks to its 1024x768 screen resolution you can see every single detail in you pictures.

Premium design

The ARCHOS 80 Titanium is stylish, thin and light. Thanks to its aluminium body at just 9.9mm thick and weighing only 440g.

The ARCHOS 80 Titanium combined two cameras, great for not only video calling but also for capturing those can't-be-missed moments with your tablet when you're out and about.

Never run out of storage with the 8GB embedded* memory and the microSD slot (supporting SDHC cards up to 32GB)

Powered by Android 4.1 "Jelly Bean" with Full Access to Google Play™ Store

Certified by Google™, the ARCHOS 80 Titanium includes full access to the Google Play™ Store, including DRM support for downloading books, music and movies.

Play Apps and Games - with over 700,000 Android™ apps and games your tablet truly is your mobile entertainment system. Thanks to the 1.6 GHz dual-core processor and its powerful graphics co-processor even graphically demanding games will look amazing on its quad-core GPU.

Play Music - Millions of tracks, hand-picked rising artists and great bands from your favorite genres. You can even transfer your own music library from a USB stick or portable hard drive via the USB host port (adaptor required).

Play Books - With over 4 million books to choose from, including millions of free titles, your next great read is never far away.

Play Movies - Choose from an incredible selection of thousands of movies on Google Play including HD titles, new releases, award-winning films or your favorite classics.

A new Multimedia experience

So you can watch HD movies and listen to your favorites songs, the ARCHOS Media Center applications include the most complete codec and format support around. Using over 12 years of mobile video and audio experience, these apps will play pretty much anything that you could throw at them; even true 1080p HD video for most formats and codecs. Easy as a simple drag and drop you could synchronize all your content in just few seconds.

Video carousel - find your film easily thanks to movie and TV show information and jackets automatically downloaded by the ARCHOS Media Center and displayed in the video carousel; your video library is organized by title, series, actor etc.

Subtitle search tool - part of the ARCHOS Media Center, the Subtitle search tool means that the right subtitles are just a few taps away.

Read media from external storage - The ARCHOS media center apps can read media directly from any USB flash or hard drive that you plug into your ARCHOS Titanium tablet.
