## FAST AND SIMPLE MOUNTING

### Max size of PCB (L x W in mm)

types	base part	top part (type H only)
100 N, H	43 x 76	—
120 N, H, S	58 x 96	58 x 94
120 A	57 x 106	—
150 N, H	73 x 126	72 x 142
150 A	67 x 138	—
189 N, H, L	103 x 160	102 x 158/ 101 x 180
210 A	109 x 194	—

### THE PRODUCT

OKW FLAT-PACK CASES represent low-priced housings for your electronics.

The bottom parts are open at the sides and are thus particularly useful for all installation and service work.

Different sizes, heights and versions make functional and practical applications possible.

### TYPES

With low (N) and high (H) top part. Special version with handle bar for convenient canting or easy carrying.

With ventilation slots for components dissipating high heat (189 L).

With slots on the top part for miniature appliances with sound signal (120 S).

Screwless assembly with separate front panel in aluminium, easy machining. Control elements and lettering are protected through a raised edge on the case (type A).

\*<sup>1</sup> FLAT-PACK CASE A: if the case is wall mounted, the frame can be screwed to the base from the side\*<sup>2</sup> this simple snap lock device replaces the standard screw fixings supplied with the case; the lock is fixed into the assembly bushes in the top cover; with this, the top can be fixed from the front – this is especially useful if the case is to be wall mounted; only for FLAT-PACK CASES 189 N/H/L with assembly bushes\*<sup>3</sup> assembly kit for wall mounting permits screw fixing of the case from the front; it is necessary to drill the top cover of the case in order to achieve this; ask for more details of our service
