

Data sheet acquired from Harris Semiconductor SCHS246

# CD74AC251, CD74ACT251

August 1998

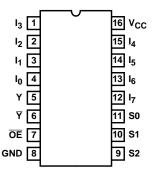

# 8-Input Multiplexer, Three-State

### **Features**

- Buffered Inputs
- Typical Propagation Delay
  - 6ns at  $V_{CC} = 5V$ ,  $T_A = 25^{\circ}C$ ,  $C_L = 50pF$
- Exceeds 2kV ESD Protection MIL-STD-883, Method 3015
- SCR-Latchup-Resistant CMOS Process and Circuit Design
- Speed of Bipolar FAST™/AS/S with Significantly Reduced Power Consumption
- Balanced Propagation Delays
- AC Types Feature 1.5V to 5.5V Operation and Balanced Noise Immunity at 30% of the Supply
- ±24mA Output Drive Current
  - Fanout to 15 FAST™ ICs
  - Drives  $50\Omega$  Transmission Lines

### **Pinout**

CD74AC251, CD74ACT251 (PDIP, SOIC) TOP VIEW

### Description

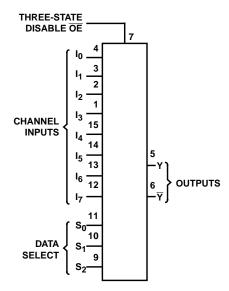

The CD74AC251 and CD74ACT251 8-input multiplexers that utilize the Harris Advanced CMOS Logic technology. This multiplexer features both true (Y) and complement ( $\overline{Y}$ ) outputs as well as an Output Enable ( $\overline{OE}$ ) input. The OE must be at a LOW logic level to enable this device. When the  $\overline{OE}$  input is HIGH, both outputs are in the high-impedance state. When enabled, address information on the data select inputs determines which data input is routed to the Y and  $\overline{Y}$  outputs.

## **Ordering Information**

PART NUMBER	TEMP. RANGE ( <sup>o</sup> C)	PACKAGE	PKG. NO.
CD74AC251E	0 to 70 <sup>o</sup> C, -40 to 85, -55 to 125	16 Ld PDIP	E16.3
CD74ACT251E	0 to 70°C, -40 to 85, -55 to 125	16 Ld PDIP	E16.3
CD74AC251M	0 to 70°C, -40 to 85, -55 to 125	16 Ld SOIC	M16.15
CD74ACT251M	0 to 70°C, -40 to 85, -55 to 125	16 Ld SOIC	M16.15

- 1. When ordering, use the entire part number. Add the suffix 96 to obtain the variant in the tape and reel.
- Wafer and die for this part number is available which meets all electrical specifications. Please contact your local sales office or Harris customer service for ordering information.

$$\label{eq:Hamiltonian} \begin{split} H &= \text{High logic level, L} = \text{Low logic level, Z} = \text{High impedance (off),} \\ X &= \text{Irrelevant, I}_0, \, \text{I}_1...\text{I}_7 = \text{The level of the respective input} \end{split}$$

### **Absolute Maximum Ratings**

# DC Supply Voltage, V $_{CC}$ ... -0.5V to 6V DC Input Diode Current, I $_{IK}$ For V $_{I}$ < -0.5V or V $_{I}$ > V $_{CC}$ + 0.5V ... ... $\pm 20$ mA DC Output Diode Current, I $_{OK}$ For V $_{O}$ < -0.5V or V $_{O}$ > V $_{CC}$ + 0.5V ... ... $\pm 50$ mA DC Output Source or Sink Current per Output Pin, I $_{O}$ For V $_{O}$ > -0.5V or V $_{O}$ < V $_{CC}$ + 0.5V ... ... $\pm 50$ mA DC V $_{CC}$ or Ground Current, I $_{CC}$ or I $_{GND}$ (Note 3) ... ... $\pm 100$ mA

### **Thermal Information**

Thermal Resistance (Typical, Note 5)	θ <sub>JA</sub> ( <sup>o</sup> C/W)
PDIP Package	·
SOIC Package	
Maximum Junction Temperature (Plastic Package)	150 <sup>0</sup> C
Maximum Storage Temperature Range	65°C to 150°C
Maximum Lead Temperature (Soldering 10s)	300°C

### **Operating Conditions**

Temperature Range, T <sub>A</sub> 55°C to 125°C Supply Voltage Range, V <sub>CC</sub> (Note 4)
AC Types
ACT Types
DC Input or Output Voltage, V <sub>I</sub> , V <sub>O</sub> 0V to V <sub>CC</sub>
Input Rise and Fall Slew Rate, dt/dv
AC Types, 1.5V to 3V 50ns (Max)
AC Types, 3.6V to 5.5V
ACT Types, 4.5V to 5.5V

CAUTION: Stresses above those listed in "Absolute Maximum Ratings" may cause permanent damage to the device. This is a stress only rating and operation of the device at these or any other conditions above those indicated in the operational sections of this specification is not implied.

### NOTES:

- 3. For up to 4 outputs per device, add  $\pm 25$ mA for each additional output.
- 4. Unless otherwise specified, all voltages are referenced to ground.
- 5.  $\theta_{JA}$  is measured with the component mounted on an evaluation PC board in free air.

### **DC Electrical Specifications**

		TEST CONDITIONS		v <sub>cc</sub>		°c		-40°C TO 85°C		-55°C TO 125°C

<sup>(1)</sup> The marketing status values are defined as follows:

ACTIVE: Product device recommended for new designs.

LIFEBUY: TI has announced that the device will be discontinued, and a lifetime-buy period is in effect.

**NRND:** Not recommended for new designs. Device is in production to support existing customers, but TI does not recommend using this part in a new design.

PREVIEW: Device has been announced but is not in production. Samples may or may not be available.

**OBSOLETE:** TI has discontinued the production of the device.

(2) Eco Plan - The planned eco-friendly classification: Pb-Free (RoHS) or Green (RoHS & no Sb/Br) - please check http://www.ti.com/productcontent for the latest availability information and additional product content details.

TBD: The Pb-Free/Green conversion plan has not been defined.

**Pb-Free** (RoHS): TI's terms "Lead-Free" or "Pb-Free" mean semiconductor products that are compatible with the current RoHS requirements for all 6 substances, including the requirement that lead not exceed 0.1% by weight in homogeneous materials. Where designed to be soldered at high temperatures, TI Pb-Free products are suitable for use in specified lead-free processes.

Green (RoHS & no Sb/Br): TI defines "Green" to mean Pb-Free (RoHS compatible), and free of Bromine (Br) and Antimony (Sb) based flame retardants (Br or Sb do not exceed 0.1% by weight in homogeneous material)

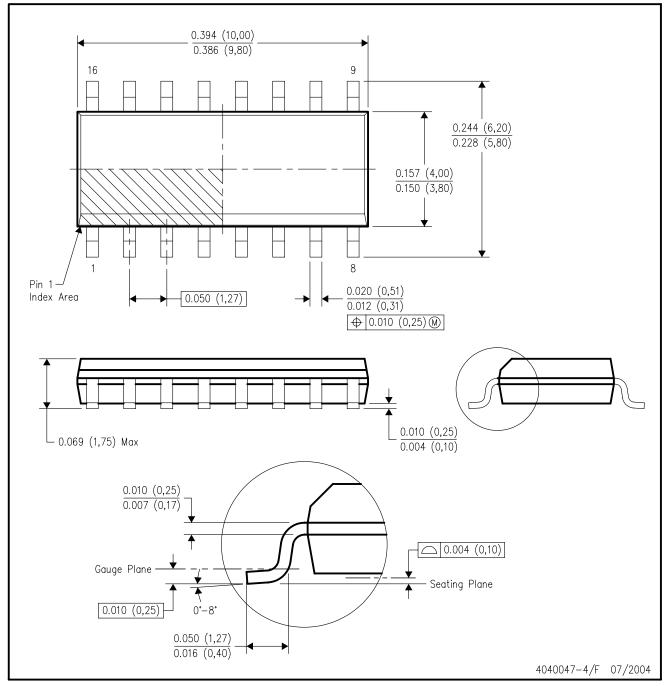

(3) MSL, Peak Temp. -- The Moisture Sensitivity Level rating according to the JEDEC industry standard classifications, and peak solder temperature.

Important Information and Disclaimer: The information provided on this page represents TI's knowledge and belief as of the date that it is provided. TI bases its knowledge and belief on information provided by third parties, and makes no representation or warranty as to the accuracy of such information. Efforts are underway to better integrate information from third parties. TI has taken and continues to take reasonable steps to provide representative and accurate information but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. TI and TI suppliers consider certain information to be proprietary, and thus CAS numbers and other limited information may not be available for release.

In no event shall TI's liability arising out of such information exceed the total purchase price of the TI part(s) at issue in this document sold by TI to Customer on an annual basis.

# D (R-PDSO-G16)

# PLASTIC SMALL-OUTLINE PACKAGE

- A. All linear dimensions are in inches (millimeters).
- B. This drawing is subject to change without notice.
- C. Body dimensions do not include mold flash or protrusion not to exceed 0.006 (0,15).
- D. Falls within JEDEC MS-012 variation AC.

### **IMPORTANT NOTICE**

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
