

Common to all Mini-Fit® Families

- Headers and receptacles designed with individual silos to protect and isolate each contact
- Locking pegs or screw mount flanges available to hold headers to PCB during soldering
- Receptacles polarized to headers and plug housings to prevent mis-mating
- Available in tin and gold-plated versions
- High normal force contact design ideal for high vibration applications

Specifications

- Voltage: 600V
- Max Current: Mini-Fit Plus HCS — 13.0A
Brass — 9.0A
Phosphor Bronze — 8.0A
- Mating Cycles: Mini-Fit, Jr. — Tin 30 cycles
Mini-Fit Plus HCS — Tin 75 cycles, Gold 100 cycles
- UL, CSA and TUV Approved
- RoHS Compliant

Custom Options

- Make First, Break Last (MFBL) contacts
- Longer tail lengths for thicker PCBs
- Voided circuits

Features and Benefits

Mini-Fit Jr.™

- Positive locking system prevents accidental unmating
- Single and dual row versions
- Vertical and right angle header options

Mini-Fit H20™

- An IP67-rated system ensures a water and dust-tight interconnection
- Receptacle and plug assemblies will be shipped pre-assembled with matte and perimeter seals installed means less handling required, resulting in lower applied costs during the cable assembly operation
- Positive locking system ensures the connectors are securely mated and prevents accidental un-mating
- Connectors are molded from UV stabilized materials making system suitable for use in outdoor applications

Mini-Fit BMI™ (Blind-Mating Interface)

- Headers and plugs have flanges to "capture" mating connector
- Blind mating design accommodates mating connector misalignment of 1.27mm (.050") in any direction
- Headers are available in vertical and right angle through hole versions, and a vertical compliant pin version
- Uses existing Mini-Fit crimp terminals

Mini-Fit Plus HCS™ (High Current System)

- Plus HCS terminals are for use with standard Mini-Fit plug and receptacles
- Manufactured from a higher current capable alloy to increase current rating
- Female terminals feature an elongated mating interface providing more wipe and contact area
- Uses existing Mini-Fit crimp terminal tooling

Mini-Fit TPA™ (Terminal Position Assurance)

- Positive locking system prevents accidental unmating
- TPA key assures terminals are fully seated in plugs and receptacles
- TPA key prevents unwanted terminal backouts
- Accepts standard Mini-Fit crimp terminals
- Optional plug panel mounting ears

Mini-Fit RTC™ (Reflow Temperature Capable)

- Headers are made from LCP material which can withstand lead free reflow temperatures to 265°C
- Vertical and right angle options
- Mate with standard Mini-Fit receptacles

Mini-Fit® Glow Wire Capable

- Third party certified to IEC 60335-1
- Headers, receptacles and plugs are available
- Over 800 Glow Wire capable part numbers available

Mini-Fit CPI™ (Compliant Pin Interface)

- Press-fit pin requires no soldering
- Blind-mating capabilities
- Molex press tooling is available
