

MIL-STD-1760 Type 2 (MIL-DTL-83538)

Stores Management Systems

The 1760 Type 2 differs from the Type 1 in that it is specifically designed for rail launch applications. Type 2 blindmate comprises launcher receptacle, buffer, missile receptacle and protective cap and is designed for a quick coupling of stores where access is restricted.

The buffer provides protection for the launcher receptacle from the missile efflux and is replaceable as necessary. The buffer has fixed pin contacts and is supplied with a full complement of contacts.

Special buffer adaptors are available for connection of various configurations of stores aircraft - please consult Deutsch.

FEATURES

- Bayonet locking for easy coupling
- Replaceable buffer
- Full EMC shielding
- Full environmental performance
- Adaptors for multi-configurations
- Corrosion resistant construction

BENEFITS

- Blindmate capability
- Assured performance in all conditions
- Repeatable performance
- Easy disconnect/connect

COMPANY QUALITY APPROVALS

- Civil Aviation Authority A8-1
- BS EN ISO 9001
- Military Spec Approvals 38999
- BS9000 and CECC
- Underwriters Laboratories

With 30 years experience in designing and manufacturing at its own facilities, Deutsch UK can provide interconnection solutions for the most demanding of environments

GENERAL SPECIFICATION

Material:	
Shell/coupling ring:	Stainless Steel
Plating:	Nickel plating
Contacts:	
Material:	Gold plated Copper Alloy
Type:	Crimp
Insulators:	Thermoplastic
Interface Seal:	Fluorinated Silicone
Temperature:	-55°C to +175°C
Durability:	No electrical or mechanical defects after 500 cycles
Vibration:	As per Mil-DTL-83538
Thermal Shock:	As per Mil-DTL-83538
