EXTRA EASE OF USE

The flange shape when rolled down serves as a very effective insertion device. This makes fitting the earplug so easy, that you can guarantee a correct fit every time! This soft, shaped earplug overcomes any fears you or your workers have with fitting hearing protection.

EXTRA COMFORT

Designed to provide the ultimate in comfort and protection, E A Rsoft FX is the latest innovation from E A R. The E A Rsoft FX's smooth tapered finish makes fitting easier and helps form a soft and comfortable fit in the ear canal.

EXTRA PROTECTION

E A Rsoft FX earplugs feature a patented shape to fit more effectively in the ear canal. The result: Tests prove that EARsoft FX provides the highest protection of any earplug in the market today - **SNR 39dB!** You can't get higher protection with the added advantage of ultimate comfort.

E A Rsoft FX are available with or without a cord.
