

LOGITECH® WIRELESS SOLAR KEYBOARD K750

If you've got the light,
you've got the power

This solar-powered keyboard makes battery hassles a thing of the past. The keyboard charges itself with any light, including the one on your desk. So you can say goodbye to battery changes and charging cables—all with a streamlined design that looks and feels great.

FEATURE AT A GLANCE

Powered by light

- Charges itself whenever there's sunlight or indoor lighting
- Stays charged for at least three months in total darkness

Only 1/3-inch thick

The thin profile and sleek lines add style to your workspace—whether you've got a laptop or desktop.

Feel-good typing

Combines the best of traditional keyboards, laptops and a Logitech-only concave key cap design for faster, quieter, more comfortable typing

Powerful, reliable connection

- Long-range wireless lets you work or play in more places, like your comfy couch
- Virtually eliminates delays, dropouts and interference

Plug it. Forget it. Add to it.

- Tiny Logitech Unifying receiver can stay in your notebook
- Add a compatible wireless mouse or keyboard without the hassle of multiple USB receivers

WORKS WITH

Windows-based PC

- Windows® XP, Windows Vista® or Windows® 7
- Light source from sunlight and/or indoor lighting

WHAT'S IN THE BOX?

- Keyboard
- Logitech® Unifying receiver
- Wireless Extender
- 3-year limited hardware warranty
