

SuperFlux LEDs

Introduction

This revolutionary package design allows the lighting designer to reduce the number of LEDs required and provide a more uniform and unique illuminated appearance than with other LED solutions. This is possible through the efficient optical package design and high-current capabilities.

The low profile package can be easily coupled with reflectors or lenses to efficiently distribute light and provide the desired lit appearance. This product family employs the world's brightest red, red-orange, amber, blue, cyan, and green LED materials, which allow designers to match the color of many lighting applications like vehicle signal lamps, specialty lighting, and electronic signs.

Key Benefits

- ♦ Rugged Lighting Products
- ♦ Electricity Savings
- ♦ Maintenance Savings

Features

- ♦ High Luminance
- ♦ Uniform Color
- ♦ Low Power Consumption
- ♦ Low Thermal Resistance
- ♦ Low Profile
- ♦ Meets SAE/ECE/JIS Automotive Color Requirements
- ♦ Packaged in tubes for use with automatic insertion equipment

Typical Applications

- ♦ Automotive Exterior Lighting
- ♦ Electronic Signs and Signals
- ♦ Specialty Lighting

Notes:

- Φ_V is the total luminous flux output as measured with an integrating sphere after the device has stabilized. ($R_{\theta-J-A} = 200^\circ\text{C/W}$, $T_A = 25^\circ\text{C}$)
- $\theta_{0.90V}$ is the included angle at which 90% of the total luminous flux is captured.

Absolute Maximum Ratings at $T_A = 25^\circ\text{C}$

Company Information

Lumileds is a world-class supplier of Light Emitting Diodes (LEDs) producing billions of LEDs annually. Lumileds is a fully integrated supplier, producing core LED material in all three base colors (Red, Green, Blue) and White. Lumileds has R&D development centers in San Jose, California and Best, The Netherlands. Production capabilities in San Jose, California and Malaysia.

Lumileds is pioneering the high-flux LED technology and bridging the gap between solid state LED technology and the lighting world. Lumileds is absolutely dedicated to bringing the best and brightest LED technology to enable new applications and markets in the lighting world.

Lumileds may make process or materials changes affecting the performance or other characteristics of our products. These products supplied after such changes will continue to meet published specifications, but may not be identical to products supplied as samples or under prior orders.
