

Caged Nuts

A range of zinc plated cage nuts available in M5 and M6 thread sizes. The nuts are held in a spring steel cage. Ideal for use when fixing front panels onto racking systems, cabinets etc. Two types of cage nuts are available when using different thickness materials. Each pack contains 25 nuts.

N (Narrow) Type for material thickness 0.71 to 1.63mm (22 to 16swg)
W (Wide) Type for material thickness 1.83 to 2.64mm (15 to 12 swg)
