Features & Benefits

- **30 Amp or 40 Amp Power Distribution.** High amperage 120V and 208V units allow you to safely support power-thirsty IT equipment.
- **Dual circuit design.** Two easy access circuit breakers provide overload protection. 30 Amp units use a 3-wire 30A plug (1 Hot, 1 Neutral, 1 Ground) that branches into two (2) 15 Amp circuits, giving you 30 Amps total. 40 Amp units use a 4-wire 20A plug (2 Hots, 1 Neutral, 1 Ground) that provides two (2) 20 Amp circuits, giving you 40 Amps total.
- **Built in universal slide mounting rail.** T-slot mounting rail allows several mounting options in tight spaces.
- **Current Monitoring.** -AM and -RAM units provide per circuit digital ammeter readouts (embedded or remote display). Ammetering allows you to evenly distribute power loads to maximize current draw and avoid circuit overloads.
- **Aesthetic narrow aluminum profile.** Now available in black, the streamlined housing saves valuable space.
- **Printed Circuit Board (PCB) Connection of UL489 Breakers.** Creates highly reliable connections to reduce potential point of failure.
- **Extensive Custom Capabilities.** See 'Custom Options' on page 4.
