

- Universal AC input/ Full range
- High Efficiency, Low Power Consumption
- Output Protections: OLP/OVP/SCP
- Wide operating ambient temperature (-20°C~65°C)
- No fan required, suitable for quiet environments
- All using 105°C long life electrolytic capacitors.
- 100% full load burn-in test

Note	All parameters NOT specially mentioned are measured at rated input, rated load, and 25°C of ambient temperature Measured at 20MHz of bandwith by using a 12" Twisted pair wire terminated with a 0.1uF & 47uF parallel capacitor The SPS is considered a component which will be installed into final equipment. The equipment must be re-confirmed that it still meets EMC directives.
