

558-412 - Description

The **558-412** is a black polypropylene mounting clip and retaining ring. It is designed to panel mount 5.0mm L.E.D. lamps.

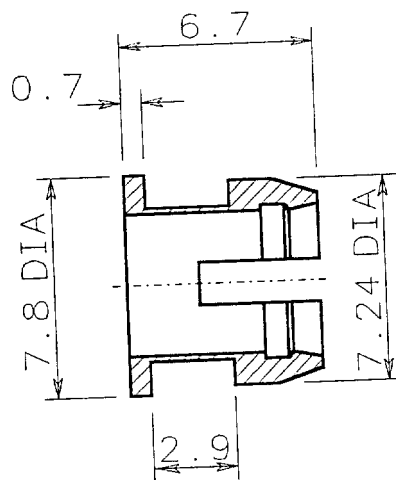

This clip and retaining ring combination is intended for installation into instrument panels with a 0.5mm to 2.7mm thickness.

For panels greater than 2.7mm thick, a counter-bore is required to the 2.7mm thickness.

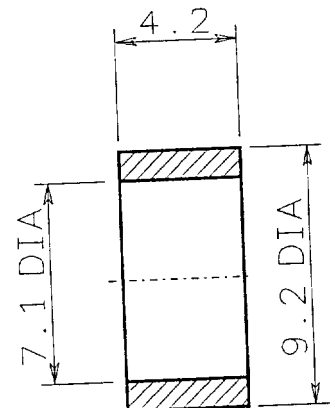

The minimum acceptable hole diameter is 6.3mm.
