

Important notes about Classic Panel Mount Indicator Catalog Pages

SCROLL DOWN TO VIEW CATALOG PAGE

This catalog page is out-of-print and is used with the understanding that the information shown could be out-of-date. In many cases, part numbers shown on this page are discontinued. Most notably, many "Complete Assembly" parts, which consist of a cap and a base, can no longer be ordered by the 14-digit ordering code. To obtain these parts, please order the cap and base part numbers separately. This process provides the components contained with the original "Complete Assembly" part number.

All Dialight Classic Panel Mount Indicators need a leading 3-digit numerical series. In some cases, this catalog will show a 2-digit series. In this case, please add a leading zero. For example, 81-0211-300 becomes 081-0211-300.

Part numbers listed on Dialight catalog pages designate parts with Red lenses. For ordering lens colors other than red, consult the chart below. In most cases, the color is dictated by the 7th digit. For example, 095-0932-003 for a green cap.

Lens Colors	
1 - Red	5 - White
2 - Green	6 - Light Yellow
3 - Yellow	7 - Clear
4 - Blue

Miniature Incandescent Indicators

**T-3 1/4
MINIATURE
BAYONET BASE**

See lamp ratings
on page K.

Recognized under the component
program of Underwriters'
Laboratories Inc.

75W., 125V.

How to designate the three digit part number suffix (-XXX)

FINISH	RESISTOR	HARDWARE
1 - White nickel	0 - None	1 - Brass
2 - Black nickel		3 - Water-tight, on the face of the panel.
3 - Polished chrome		
4 - Satin chrome		

NOTE: The part numbers given in this catalog indicate **standard** indicator lights. The table above provides the standard and optional designations for **Finish** and **Hardware** where appropriate. Example: 95-1310-0931-203 (black nickel finish with water-tight construction).

Part numbers listed in this catalog designate products with **RED** lens.
For ordering lens colors other than red, consult chart on page 2D.
