HSMF-C114

Surface Mount Tricolor ChipLEDs

Data Sheet

Description

The HSMF-C114 tricolor chip-type LED is designed in an ultra small package for miniaturiza-tion. It is the first of its kind to achieve such small packaging and be the thinnest package in the industry for tricolor package. With the freedom to have any combination of colors from mixing of the 3 primary colors, this will yield a wide variety of colors to suit every application and product theme.

The small size, narrow footprint, and low profile make this LED excellent for back-lighting, status indication, and front panel illumination applications.

In order to facilitate pick and place operation, this ChipLED is shipped in tape and reel, with 4000 units per reel. The package is compatible with reflow soldering and binned by both color and intensity.

Features

- Common anode

Optical Characteristics at $T_A = 25°C$

Part Number	Luminous Intensity I_V[1] (mcd) @ 20 mA		Peak Wavelength λ_{peak} (nm)	Color, Dominant Wavelength λ_d[2] (nm)	Viewing Angle $2\theta_{1/2}$[3] (Degrees)	Luminous Efficacy η_v (lm/W)
	Min.	Typ.	Typical	Typical	Typical	Typical
AlInGaP Red	28.5	85.0	637	626	140	155
InGaN Green	45.0	180.0	523	525	145	477
InGaN Blue	28.5	70.0	468	470	145	75

Notes:
1. The luminous intensity IV is measured at the peak of the spatial radiation pattern which may not be aligned with the mechanical axis of the LED package.
2. The dominant wavelength, Id, is derived from the CIE Chromaticity Diagram and represents the perceived color of the device.
3. q1/2 is the off-axis angle where the luminous intensity is 1/2 the peak intensity.

CAUTION:

1. The above optical performance specifications are valid in the case when single LED is lit up.
2. The above product specifications DO NOT provide any guarantee on color mixing, color consistency over time, or uniformity in luminous intensity when more than 1 LED is lit.
3. Please refer to Avago Technologies' Application Brief AB D-007 for additional details/explanation on driving the part in parallel circuit.
