## **Features**

### **Unregulated** Converter

- 1:1 Input Range
- 0.25W SIP4 Package
- Efficiency up to 82%
- 1kVDC and 2kVDC Isolation Option
- Operating Temperature from -40°C to +100°C

### **Description**

The RM/E series DC/DC converter has been designed to offer exceptionally high efficiency, low quiescent current and an extended operating temperature range. Uses include battery powered supplies, high efficiency designs or high temperature applications.

#### **Selection Guide**

| Part<br>Number<br>SMD | Input<br>Voltage<br>(VDC) | Output<br>Voltage<br>(VDC) | Output<br>Current<br>(mA) | Efficiency<br>typ.<br>(%) | Max<br>Capacitive<br>Load <sup>(1)**</sup> |  |
|-----------------------|---------------------------|----------------------------|---------------------------|---------------------------|--|--|
| RM-3.305S/E*          | 3.3                       | 5                          | 50                        | 80                        | 1000μF                                     |  |

Notes

Note1:

our Application Notes.

Maximum capacitive load is defined as the capacitive load that will allow start up in under 1second without damage to the converter.
