

EXTENDED CAP

PLUG HOUSING

.636
[16.15]

This technical drawing shows a side view of a plug housing assembly. The assembly consists of several components: a plug housing, an extended cap, and a plug. The plug housing is the main body, and the extended cap is attached to its left side. The plug is inserted into the housing. A dimension line on the left indicates a length of .636 [16.15] for the extended cap. Labels with arrows point to the 'EXTENDED CAP' and 'PLUG HOUSING'. A table in the top right corner contains revision information.
