Storage temperature : $-25 \sim 85^\circ\text{C}$

Storage condition : Use the products within 6 months after delivered.

Products should be storage on the following conditions.

Heat and high humidity and the intense place of temperature change make a cause, which causes characteristic degradation.

< Recommended storage condition >

Temperature : 35°C max.

Humidity : Around 50% relative humidity

Cool and dark place (No change on temperature and humidity as much as possible)

5. Operating Condition

Cable: Correspond by the thickness of 0.6mm

When you use it exceeding this, please evaluate reliability in your company.

6. Appearance Standard

There must be no defects, cracks and foreign substance on the core, which is harmful in practical.

The defects is 5.0mm^2 maximum.(please see fig. 1)

If there is any doubt about the appearance, the limit sample shall be made.
