

Keep the Power On with PowerFilm

PowerFilm 30 Watt Foldable Solar Charger

Ultra Compact • Ultra Lightweight • Easy to Use

The PowerFilm 30 Watt Solar Charger is a foldable, lightweight, durable and extremely portable solar panel. The solar panels are mounted to a lightweight, weather resistant fabric that easily folds for storage and unfolds for use. The 30 Watt Foldable Solar Charger fits easily into most bags or rucksacks and weighs under 2 pounds, which makes it the perfect expeditionary accessory to provide power for a wide range of electronics. Unmatched durability allows for use in even the harshest environments and PowerFilm's proprietary processes produces a panel that works even after being punctured. Unlike "CIGS" solar technology, PowerFilm A-Si solar modules do not need to be "sun soaked" after storage, they provide critical power immediately when placed in the sun.

RA-2 Included

- **Folds up compactly**
- **Lightweight**
- **Durable - military tested**
- **Economical and easy to use**
- **Works in low light conditions**
- **No "sun soaking" required**
- **Ideal for everyday use**
- **Power to charge the widest range of electronic devices**

Application Examples:

Battery Charging

Remote Power -
Larger HAM Radio

Remote Power -
Camping - Lighting, etc.

Remote Power -
H₂O Purification

Remote Power -
† DC Compatible Devices

Remote Power -
Netbook

Remote Power -
Power Tools

Note - some applications may require additional accessories. Example - PowerFilm recommends use of an inverter and battery for laptop charging.

Specifications*	Solar Operating Voltage (V)	Solar Operating Current (Amps)	Weight (lbs./kg)	Folded Dimensions (inch/mm)	Unfolded Dimensions (inch/mm)
PowerFilm 30 Watt Solar Charger	15.4	1.8	1.70 / 0.77	12.75 x 7 x 1.25 324 x 177.8 x 31.8	47 x 25.25 1193.8 x 641.4

* Operating Voltage and Operating Current at AM 1.5. Power performance may vary +/- 10% due to temperature variation, spectral variation, and related effects.
