Exploded view diagram of the 1000 Series Terminal Block Assembly. The diagram illustrates the assembly of the terminal block, including the main housing, terminal supports, and various mounting hardware. Key components are labeled with circled numbers (1-66) and letters (A, B, I). A dashed line indicates the assembly path. A note at the top right specifies the terminal support location, showing a cross-section of the terminal support and the terminal block, with labels 8 REF and 34 REF.
