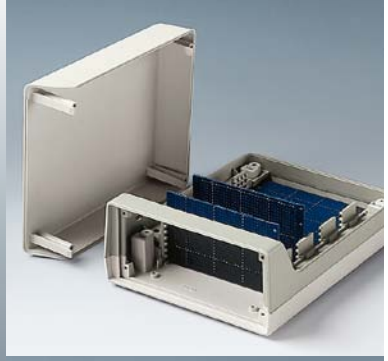
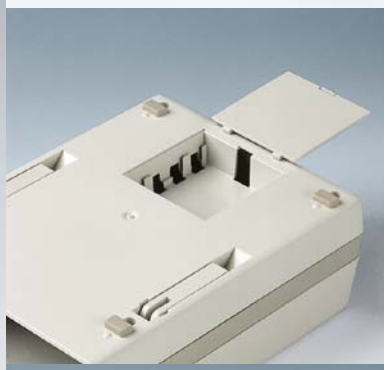
OKW GEHÄUSE SYSTEME





FAST ASSEMBLY

THE PRODUCT

The LUX CASE range offers an unusual case design.

The three-part assembly makes the components easily accessible.

The selection of the centre section, e.g. in your company's colour, allows you to create individual electronics cases to match the corporate design of your company.

YOUR ADVANTAGE

Vertical and horizontal PCB mounting – a special advantage of the OKW LUX CASE range is achieved by the specially designed card guide. The card guide is fitted into the centre section and can be moved horizontally.

The assembled PCBs can be simply inserted from the front. For this, the PCB is assembled with the front panel.

It is simple to use and the display instruments are easy to read off, thanks to the fold-out tilt feet or sturdy tilt bar (size 230 only). May also be used as a carry handle.

Protection class < IP 40

Max. size of PCB (W x D in mm)

	base part	top part
150	70 x 128 (without batt. comp.)	
190	100 x 165 (without batt. comp.)	
230*	129 x 205	128 x 175
230**	129 x 180	128 x 150

(PCB mounting on fastening pillars)

**without/ **with ventilation slots*
