

Ergonomic Telescopic Handles

Quick-Connect System

Quick-connect mechanism provides efficient attachment of frame to handle : Dual, opposing finger tabs ensure a secure fit and prevent accidental release of frame from handle.

- Lightweight aluminum construction
- Quick connect mechanism for easy frame exchange
- Complete powder coating for more visibility
- Shaped hand grips for comfortable use
- Available in 4 colours, to help reduce the risks of cross contamination by assigning one colour to a specific area of use

How to customise the ergonomic handle ?
