

TOURCAT SCREENED RJ45 TO RJ45

- Van Damme Tourcat F/UTP flexible cable terminated with RJ45 connectors with black strain relief boots
- Rugged, flexible assembly ideal for patching and tactical use, particularly for the Audio Visual market
- Suitable for Gigabit and 100Mbit Ethernet, digital audio and video over Cat 5E
- Assemblies manufactured in the UK and individually tested with a Cat 5E performance verifier
- RoHS Compliant

COMPONENT PARTS

Van Damme Tourcat F/UTP flexible cable

- Complies with TIA/EIA-568-B.2-2001
- More suited to temporary rigging and patching than moulded RJ45 patchcords
- Black outer jacket for discrete on stage use
- Tried and tested in the audio visual market

F/UTP RJ45 connector & boot

- Shielded, fully compliant RJ45 connector
- Cable screen drain wire soldered to connector shield
- 50µm gold plated contacts
- Neoprene rubber strain relief boot with integral latch cover
